

# Expert advice, at no cost to you

**Want to lower energy costs but aren't sure where to start? Free advising services from Efficiency Works can help you save.**

Efficiency Works helps local businesses and multifamily properties save energy, reduce water use and lower utility costs with incentives on qualifying improvements. As a business owner or property manager, one of the best ways you can take advantage of the program is with our free advising service.

## Why energy advising?

Our free advising service is tailored to your needs and where you are in the efficiency process. If you're just getting started, you'll gain a better understanding of your facility's opportunities to save energy, water and money. Or, if you already have a project in mind, an energy advisor can help maximize your energy savings and facilitate the incentive process. Either way, **it's all about giving you the information you need to make an informed decision for your business or property.** The best part is that energy advising is free and comes with no obligation.

## What happens during an advising appointment?

During your appointment, we can:

- Discuss the efficiency opportunities that best fit your needs.
- Evaluate which Efficiency Works offerings are best for you.
- Show you how to qualify for incentives and services.
- Provide you with rebate estimates for specific projects.
- Review project bids and make sure your upgrades are eligible for incentives.
- Schedule a free assessment of your property to assist with future planning.

## Why take advantage of this service?

- **Free.** There is no cost for our advising service, and you are not obligated to complete an efficiency project.
- **Easy.** Complete a simple form at [EfficiencyWorks.org/business](https://EfficiencyWorks.org/business), and one of our energy advisors will reach out.
- **Flexible.** You pick the time and place. If you'd prefer, your appointment can take place over the phone or email.

## Why focus on efficiency projects at your property?

Making your business or property more efficient is one of the quickest and most cost-effective ways to lower utility bills.<sup>1</sup> It can also increase indoor comfort, enhance the ambiance of your space, improve safety, reduce maintenance costs, add value to your property and more. Even better, Efficiency Works makes improvements more affordable with program incentives. On average, customers who have participated in Efficiency Works programs have reduced their overall project cost by 62%.

## What is Efficiency Works?

Efficiency Works is a collaboration of common efficiency programs between the utilities of Estes Park Power and Communications, Fort Collins Utilities, Longmont Power & Communications, Loveland Water and Power and Platte River Power Authority.
