

Homes rebate journey

1 Eligibility

To qualify, you **must** be a residential electric customer of Estes Park Power and Communications, Fort Collins Utilities, Longmont Power & Communications or Loveland Water and Power.

Own a single family detached home or multifamily units (4 or less per building) are eligible. **Home must be at least one year old.**

2 Assessment — 3 Inform

For insulation, air sealing, windows, and doors, an assessment is necessary. However, an assessment is not required for HVAC.

Ensure you are working with an Efficiency Works listed service provider to ask about available rebates for your home.

4 Pre-approval

Certain rebates or bonuses may be subject to pre-approval requirements, verify with a listed service provider.

✓ Work completed!

5 Working with your service provider

Once you start working with your Efficiency Works service provider, you will be asked to sign the following documents once work is completed:

Terms and conditions

Health and safety liability form

6 Rebate application submission

Your service provider must submit your rebate application within 45 days of completion; you do not need to submit it yourself. You will receive an email notification once it has been submitted.

7 Approval — 8 Payment

Our Efficiency Works Homes program manager will approve your application after it has been submitted by your service provider. You will receive an email notification once approved.

Our Efficiency Works Homes program pays out every two weeks. You will receive your rebate check in 4-6 weeks.
