

Custom incentives and conditions

Revised November 2024

Category	Incentive	Criteria
Energy	\$0.10 per kWh per year saved	Must save a minimum of 1,000 kWh/year
Demand	\$500 per kW saved	During summer peak period (weekdays, June-August, 3pm-6pm), discounted for equipment duty cycles and any other factor reducing consistent coincident peak demand savings.
Water	\$10 per 1,000 gallons per year saved	Fort Collins Utilities water customers only

Additional requirements

1. The custom rebate is the greater of the energy, demand, and water rebate.
2. Caps are 75% of project cost and a one year simple payback (whichever is less).
3. Projects may not qualify if the simple payback is greater than 15 years or longer than the product's expected life.
4. All custom projects require preapproval.
5. If a prescriptive rebate is available for the proposed project, the project is not eligible for a custom incentive.

Incentive details and requirements:

- Electric efficiency incentives are available to commercial electric customers of Estes Park Power and Communications, Fort Collins Utilities, Longmont Power & Communications or Loveland Water and Power
- Water efficiency incentives are available to commercial water customers of Fort Collins Utilities, City of Longmont or Loveland Water and Power
- Water incentives are subject to a \$5,000 cap
- Total incentive amounts over \$10,000 require pre-approval before efficiency upgrades begin
- Total incentives are limited to 100% of a project total upgrade cost
- Efficiency Works Business maximum incentive limits will apply per project, see Program Guide for details
