

BUSINESS ASSESSMENTS

Efficiency Works Business can identify potential energy and water efficiency opportunities and qualifying rebates so you can save money up front and on your monthly utility bills.

The best way to start is by scheduling a facility assessment that will help you understand and manage utility costs and identify saving opportunities that support your business goals. Our energy advisors will explain potential benefits from efficiency upgrades, help you review project bids and plan future projects. There is no obligation to complete an efficiency project after receiving a facility assessment. Schedule an assessment today!

It's an easy **THREE-STEP PROCESS** to get an energy assessment for your business

SCHEDULE ASSESSMENT

Sign up for a free assessment to help you identify potential efficiency projects and get connected with an energy advisor.

COMPLETE ASSESSMENT

We look for efficiency opportunities and potential projects that can be implemented now or in the future. You may also be eligible to receive free efficiency products during your assessment.

REVIEW RECOMMENDATIONS

We will review the report with you and discuss the benefits that efficiency upgrades can provide.

A facility assessment will provide you with:

- Connections to technical resources
- A personal energy advisor
- Utility usage analysis
- Long-term savings opportunities
- Assistance with rebate application process

About Efficiency Works

Efficiency Works is a collaboration of common efficiency programs between the utilities of Estes Park Power and Communications, Fort Collins Utilities, Longmont Power & Communications, Loveland Water and Power and Platte River Power Authority.
