

BUSINESS MULTIFAMILY

Energy-efficient multifamily properties maintain stronger market value and upgrades are more affordable with rebates from Efficiency Works. We identify potential efficiency opportunities for your building and help you through the implementation process.

After your assessment, we can even provide cost-saving LED bulbs and water-saving products, installed directly into tenant units or in self-install kits. Any multifamily property with five or more dwelling units with a commercial electricity meter served by Estes Park Power and Communications, Fort Collins Utilities, Longmont Power & Communications or Loveland Water and Power can participate in the program. Get started today!

It's an easy **THREE-STEP PROCESS** to reduce energy consumption

SCHEDULE ASSESSMENT

Sign up for a free assessment to help you identify potential efficiency projects and get instant energy savings.

COMPLETE DIRECT INSTALL

Get energy efficiency savings with the installation of new products by our team of professionals.

IDENTIFY MORE SAVINGS

An energy advisor will guide you through the assessment report to identify more upgrade opportunities and start the rebate application process.

The Efficiency Works Multifamily program will provide you with:

- A facility assessment
- Property-wide recommendations
- In-unit upgrade recommendations
- Direct installation of efficiency measures
- Assistance with rebate applications
- Energy advising

About Efficiency Works

Efficiency Works is a collaboration of common efficiency programs between the utilities of Estes Park Power and Communications, Fort Collins Utilities, Longmont Power & Communications, Loveland Water and Power and Platte River Power Authority.
