## Additional requirements

---

1. Rebates are available for NEW commercial equipment only. Used or refurbished equipment does not apply.
2. Water efficiency incentives are available to commercial water customers of Fort Collins Utilities, City of Longmont or Loveland Water and Power.
3. Incentive is for adding variable speed fan controls to the exhaust fan motor serving the kitchen vent hoods, usually accomplished by adding a variable frequency drive (VFD) to the motor with temperature and/or grease sensors to determine the needed exhaust fan speed. Additionally, the makeup air unit (MAU) supply fan speed may need to be interlocked to be controlled as well. Incentive is per controlled horsepower. So, instead of entering the number of controlled fans/motors on the application, enter the total controlled horsepower.

### Incentive details and requirements:

- Electric efficiency incentives are available to commercial electric customers of Estes Park Power and Communications, Fort Collins Utilities, Longmont Power & Communications or Loveland Water and Power
- Water efficiency incentives are available to commercial water customers of Fort Collins Utilities, City of Longmont or Loveland Water and Power
- Total incentive amounts over \$10,000 require pre-approval before efficiency upgrades begin
- Total incentives are limited to 100% of a project total upgrade cost
- Efficiency Works Business maximum incentive limits will apply per project, see Program Guide for details

### Limited time 25% bonus incentive details and requirements:

Starting January 1, 2024 Efficiency Works Business is offering a 25% bonus on rebates for efficiency upgrades in the following categories: lighting, food service, grocery, building envelope, cooling, and VFDs. To qualify for the bonus efficiency incentives, upgrades must be completed and submitted for payment by November 15, 2024.

- Qualifying rebate categories: lighting, food service, grocery, building envelope, cooling, and VFDs
- Bonus does NOT apply to custom upgrades, office and appliance rebates, new construction or major renovation lighting or envelope projects, or building tune-up incentives
- Efficiency projects started after January 1, 2024 are eligible based on a rebate pre-approval date or the date listed on the contract (invoice) if the project did not require preapproval
- Upgrades must be completed and submitted for payment on or before November 15, 2024
- All standard incentive requirements and maximums apply to projects eligible for the bonus incentive
