

Heating, ventilation, air conditioning (HVAC)

Whole house mechanical ventilation

Efficiency measure	Gas- or electric-heated home rebates	Measure guidelines*
Mechanical ventilation (whole house)	20% of cost up to \$400	Install ventilation per ASHRAE 62.2 - 2010 mechanical ventilation requirements

Heat pumps

Efficiency measure	Gas- or electric-heated home rebates	Measure guidelines*
Heat pumps (air source and ground source)	\$500 maximum per customer	<ul style="list-style-type: none"> SEER 14.5 & HSPF 9.0 minimums Must be a cold climate model to qualify (does not apply to ground source)

Replacement furnace

Efficiency measure	Gas-heated home rebates	Electric-heated home rebates	Measure guidelines*
Tier 1, 92% min. AFUE	\$300 (\$500 max)	N/A	<ul style="list-style-type: none"> Must be sealed combustion with intake and exhaust to the outside Tier 2 furnace must have multi-stage gas valve and ECM blower motor
Tier 2, 95% min. AFUE	\$500 (\$500 max)	N/A	

Ductless mini-split

Efficiency measure	Rebates	Measure guidelines*
Ductless mini-split	\$250/head (max \$500 for gas heated home, \$750 for electric heated home)	<ul style="list-style-type: none"> • 16 SEER or higher • HSPF 9.5 or higher • Cold-climate, multi-stage heat pump

Replacement gas boiler

Efficiency measure	Gas-heated home rebates	Electric-heated home rebates	Measure guidelines*
Gas boiler	\$300	N/A	85% minimum efficiency

Replacement water heater

Gas water heaters

Efficiency measure	Rebates	Measure guidelines*
Tier 1 - Power vented	\$100	<ul style="list-style-type: none"> • Replacement situation • Tier 1 is not sealed combustion, EF=.62 or greater • Tier 2 is sealed combustion, power vented or not, EF= 0.67 or greater • Tier 3 is tankless or tank sealed combustion, EF = 0.82 or greater
Tier 2 - Direct vent	\$200	
Tier 3 - High efficiency (includes tankless)	\$400	

Electric water heaters

Efficiency measure	Rebates	Measure guidelines*
Tier 1 - heat pump water heater UEF 2.0	\$300	<ul style="list-style-type: none"> • Replacement situation • Maximum rebate of \$1,000/home • Rebates available for gas or electric heated homes that install a heat pump water heater
Tier 2 - heat pump water heater UEF 3.0	\$500	

Air conditioning system

Efficiency measure	Gas- or electric-heated home rebates	Measure guidelines*
Tier 1 = SEER 15, EER 12.5	\$150 per system \$500 maximum per customer	<ul style="list-style-type: none"> • Tier 3 systems are required to be multistage • The system must pass commissioning by Efficiency Works
Tier 2 = SEER 16, EER 12.5	\$300 per system \$500 maximum per customer	
Tier 3 = SEER 17, EER 12.5	\$500 per system \$500 maximum per customer	

Whole house fan

Efficiency measure	Gas- or electric-heated home rebates	Measure guidelines*
Whole house fan	\$275	<ul style="list-style-type: none"> • One per household limit • Must use motorized, insulated dampers

Smart thermostats

Efficiency measure	Gas- or electric-heated home rebates	Measure guidelines*
Smart thermostat	\$35 \$70 maximum per home	<ul style="list-style-type: none"> • Must replace non-programmable/non-smart thermostat
