

Building Tune-up: Performance Plus

Performance Plus is an Efficiency Works program partnering with local service providers to improve commercial building HVAC performance in northern Colorado. Take advantage of this special offer to improve maintenance and save energy on your HVAC equipment!

Is my business eligible?

Commercial electric customer of Estes Park, Fort Collins, Longmont or Loveland's electric utilities.

Have at least 1 piece of unitary cooling equipment

Desire for a higher level of maintenance service

What are the benefits?

- Improved reliability and performance of cooling equipment
- Reduced energy use and cost
- High-quality maintenance at an affordable price
- Seamless process with contractors you know and trust
- Receive incentives for each serviced unit as shown in the table

Incentives	
Unit Size	Incentive Per Ton
<7.5 tons	\$50
7.5 - 10 tons	\$40
> 10 tons	\$35

Project example showing energy savings and incentive for 3 units

Unit Designation	Unit Size	Incentive Example	Energy Savings Example
Unit 1	5 ton unit	5 tons x \$50 = \$250 incentive	1,250 kWh savings
Unit 2	10 ton unit	10 tons x \$40 = \$400 incentive	2,500 kWh savings
Unit 3	20 ton unit	20 tons x \$35 = \$700 incentive	5,000 kWh savings
Total	3 units	\$1,350 incentive	8,750 kWh savings

Identify additional energy-saving opportunities

- Learn about other equipment upgrades and rebates that are right-sized for your business
- Receive energy advising support to help you make informed decisions
- Save energy and money to help your business grow

Please contact your service provider or the Performance Plus program team to get started.
